Food+ by Compass

Feb 2017 - Mar 2018

São Paulo, Brazil

**Customer Success  
Specialist, Practo** 📄

2015 - 2016

São Paulo, Brazil

### 👤 About Me

After living in the Netherlands for the past four years, I've decided to pursue my love for technology by completing Le Wagon's Fullstack Bootcamp. You can find my latest projects on my GitHub or website as I keep working to improve myself and my work.

I have over ten years of experience managing international teams and events. More recently, I have been responsible for a tech giant's internal catering services and external events in Amsterdam.

### 📁 Latest Projects

**HomeBar App, Ruby | HTML | SCSS | JS** 📄

This App is like having a bartender at your fingertips. Select the **ingredients you have** at home, so the app tells which **cocktails you can make**, or are **just a few ingredients away from**.

- Project owner and lead
- **Designed, implemented and tested the algorithm**
- Devise and other gems integrated

**Freddie's Fiets, Ruby | HTML | SCSS | JS** 📄

My first full-stack project ever is a **marketplace** to rent or lease a bike.

- **JS** for navbar transition and typed JS
- Seeding, Cloudinary and Mapbox API
- **Full-Stack development**

### 🎓 Education

**Full-Stack Web Developer | Bootcamp, Le Wagon** 📄

Jul 2022 - Sep 2022 | Amsterdam, The Netherlands

9-week full-time intensive coding bootcamp learning HTML, CSS, Bootstrap, **JS ES6**, SQL, **git**, GitHub, Heroku and **Ruby** on Rails. Designed, implemented and shipped to production a clone of Airbnb (Freddie's Fiets 📄) and a Rails MVP of Homebar App 📄

**Marketing Management | MBA, Insper** 📄

2015 - 2016 | São Paulo, Brazil

From marketing research and customer behaviour to the breakdown of the marketing mix, as well as integrated communication and value creation through products and services.

**Events Management | B. Tech, Anhembi Morumbi University**

2012 - 2013 | São Paulo, Brazil

### 🌐 Languages

Portuguese (Native) | English (Fluent) | Dutch (A2) | Spanish
